

Matrix of Activities Concerning WAC 246-100-166

PHASE 1: The Board and DOH will complete housekeeping rule changes under the current CR-101.

PHASE 2: The advisory group on school entry immunization will develop a set of criteria for determining when an immunizing agent should be mandated for school entry and to evaluate the list of currently mandated vaccines and new vaccines against those criteria.

PHASE 3: The Board will consider the advisory group recommendations and other potential changes to WAC 246-100-166 that are outside the scope of the existing CR-101 and/or require extensive stakeholder work.

PHASE 1: Current CR-101— WAC 246-100-166	PHASE 2: Advisory Group on School Entry Immunization	PHASE 3: Future Rule Making
<ul style="list-style-type: none">▪ Make more readable▪ Reduce confusion▪ Remove Client Information System (CIS) data requirements▪ Electronic CIS filing▪ Align reporting dates▪ Eliminate confusion about “schedule”▪ Reference 2004 ACIP national guidelines for ages and intervals▪ Remove requirement for secondary documents▪ Define local health officer▪ Fix childcare definition▪ Clarify language around medical exemptions▪ Remove transfer student exemption	<ul style="list-style-type: none">▪ Develop criteria for school entry mandates▪ Assess currently mandated antigens against criteria▪ Assess new antigens (combo, varicella, etc.) against criteria▪ Recommend changes to WAC 246-100-166	<ul style="list-style-type: none">▪ Consider changes to WAC 246-100-166 based on the advisory group recommendations▪ Create two forms (CIS and Certificate of Exemption)

The Board and DOH will determine best ways to tackle other major policy issues that may or may not require additional work by the advisory group.
